An Arena Update from Ed Tarksis, past CAC President

With the assistance of the Government of Alberta through a matching CFEP grant the CAC Arena was finally connected to the City of Edmonton sanitary system in November. The CAC, since the purchase of the building, was utilizing an underground holding tank and septic field to the west of our building. Many of our members and users have noticed a freshness in the building versus the sewer smell that we were accustomed to since the completion of this work. Hats off to Rick McAdie who was instrumental in achieving this long-awaited goal.

Also, in December we completed the refurbishment of the tube heaters above the spectator seating and replaced two-unit heaters, one on the east side of the ice surface and another in the Zamboni Room. The completed work should ensure that the spectator seating is warm and can be enjoyed by all patrons.

We wish to thank the Minister of Alberta Culture and Status of Women, Mr. Ron Orr, for supporting the work of the Canadian Athletic Club through the CFEP Grant Program. We would also like to recognize the work that the board members of the CAHA Ltd. and its staff provide to our members and users by ensuring that the facility is continually upgraded and is safe and welcoming.

CAC plays to support Moms

[and all the special ladies in our lives]

In 2022/23 CAC teams will once again work together to support the Lois Hole Hospital Women's Society.

The Lois Hole Hospital Women's Society raises awareness and important funds for a variety of initiatives at the Lois Hole Hospital for Women, which provides expert patient care for women of all ages and in all stages of life.

The Lois Hole Hospital for Women offers comprehensive, high-risk obstetrical and maternal care and provides surgical treatment of ovarian, cervical and other gynecological cancers.

The Lois Hole Hospital also provides clinical-based, innovative research in mental health, setting new standards in the treatment and care of women with anxiety and depression.
